

Candolor has again joined up with CAMLOG to arrange the thrilling upcoming KunstZahnWerk (art of prosthetics) competition at the IDS 2011 in Cologne. As always, the latest patient case will be another fresh challenge to participants too.

**Candolor
KunstZahnWerk® competition at
the IDS 2011**

**„Removable or Fixed“
Modern Solutions for Prosthetic Implants**

Winning project 2009, ZT Karin Martini, Switzerland

Modern, innovative, yet in line with a dental technician's daily routine. These are the requirements for the new KunstZahnWerk competition. International participants from all over Europe, the USA and Canada show their proficiency at each IDS. The latest challenge is to make a total reconstruction combined with a complete prosthesis supported by the mucous membrane and to fit a denture held by an implant. All work has to be done using the Gerber set-up technique and the teeth and implant parts supplied free of charge by Candolor and CAMLOG.

Candolor will provide you with the full patient case. Detailed information will aid you in solving this task. You will of course also get the appropriate plaster models, prosthetic teeth (Candolor Composite NFC) and implant parts.

The finished prostheses may only be submitted in the Candolor Articulator or Condylator.

There are further prizes for those participants providing additional documentation to their work and prizes for the best documentation.

A jury made up of prosthetics specialists and practitioners will judge every individual project. Each of the winners will be awarded their prizes at the Candolor press conference at the IDS in Cologne on Friday, 25 March, 2011.

All the finished projects will be shown on the Candolor stand at the IDS 2011 in Cologne. The documentation we receive will be published in various professional journals.

Prices:

1st prize: Cheque for €1.500,-

2nd prize: Cheque for €1.000,-

3rd prize: Cheque for €500,-

Further prizes for the best documentation along with many material prizes!
